as cool and white as a dairy. No smell, no smoke, no heat, no dust. No old-fashioned contrivances. The

New Perfection WICK BLUE FLAME Oil Cook-stove

is the latest practical, scientific cook-stove. It will cook the most elaborate dinner without heating the kitchen.

Boils, bakes, or roasts better than any range. Ready in a second. Extinguished in a second. Fitted with Cabinet Top, with collapsible

rests, towel rack, and every up-to-date feature imaginable. You want it, because it will cook any dinner and heat the room. No heat, no smoke, no smoke, no coal to bring in, no ashes to carry out. It does away with the drudgery of cooking, and makes it a pleasure. Women with the light touch for pastry especially appreciate it, because they can immediately have a quick fire, simply by turning a handle. No half-hour preparation. It not only is less trouble than coal, but it costs less. Absolutely no smell, no smoke; and it doesn't heat the kitchen.

The nickel finish, with the turquoise blue of the enameled chimneys, makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

Summer Prices Anthracite Coal.

Our 1910 summer prices on Anthracite coal will become effective Monday, May 2nd, 1910.

There has never been a time in the history of our business when we felt that we were able to give better values in Anthracite coal than we can this season, as we have completed our arrangements to secure our entire supply from two or three of the very best collieries in the Anthracite region, and will have a coal which is uniform in quality, well prepared, and coal that will give far better results than the average.

It is our desire to give our trade the best values that can be had, and we earnestly solicit the orders of our friends and customers.

The Overland factory is at this time 3,000 cars behind on orders. It is not hot air and it is not advertising bluff when we say that the demand for the Overland is growing like a flood. These are actual facts and there is a reason. The very fact that Overlands are hard to get proves their value all the more, and they are well worth waiting for. Give us the "wink" and we will try to get one for you

FRIDAY EVENING, MAY 6, 1910

Traced by a Thermometer. One night many years ago Dr. Whitelaw was walking along with the messenger when he was set upon and knocked down in a lonely part of the road. His pockets were rifled, and he was left lying on the road with a fracture of the tibia. One of the articles stolen was a clinical thermometer with which he had that evening taken the temperature of a patient suffering from enteric fever. He remembered the thermometer registered, also that he had not shaken down the mercury before putting the thermometer back in his pocket, and he communicated these facts to the police. Some time afterward a thermometer registering the identical temperature was discovered in a pawnshop in Glasgow, and by this means the police were enabled to track the doctor's assailants and to arrest them in one of the Glasgow theaters.—Glasgow Medical Journal.

Shell Sculptors. The workman manipulated the comb of pale, translucent trolise shell like putty, molding the top with his fingers into small balls. "You thought we carried shell here?" he said, with an Italian accent. "No, no. We heat it up and mold it. We are shell sculptors." He took three pieces of shell from a pot of steaming water and laid them very carefully, one on top of the other. In a press.

"Shell is like glue," he said. "These three pieces will weld together, and not a sign of a seam will show. Sometimes we weld nine, four, twenty pieces together. I learned my trade in Naples. I don't want to boast, but we Neapolitans are the best workers in shell and coral that there are in the world."—Philadelphia Bulletin.

Her Transformation. Irene was a little street waif. A kind hearted woman called her into her home one day, gave her a bath, brushed her hair and arranged it becomingly, trying it with a clean pretty ribbon.

A friend who was present remarked that there was such a change one would scarcely know that it was the same child. Then the little girl spoke up timidly, "But my name's Irene yet, ain't it?"—Delineator.

Mr. O'Donnell and the Hour. An excellent bull was perpetrated in the house of commons one morning at half past 1 o'clock. Mr. O'Donnell was the author. He rose suddenly to his feet and cut into the debate with, "At this late hour of the morning, Mr. Speaker."

"Early hour you mean," from the government benches. "Well, Mr. Speaker," he continued, "at this early hour of the following day."

True Enough. Irritated Citizen—Aren't you ashamed of yourself, going about with that street organ and leading such a lazy life? Street Organist—Lazy life? Why, sir, life with me is one long daily grind.—Echo.

He Lived Well. He—Yes, he lives on the fat of the land. She—What is he? He—An anti-f medicine manufacturer.—Comic Cuts.
